## TATTOO TINT

### EYEBROW TINT

A UNIQUE MIMETIC DIRECT-ACTION COLORANT  
WITH A PH OF 5.5 AND A TATTOO EFFECT

## COLORS THAT PLAY BY YOUR RULES ONLY!

---

### LIGHT BROWN:

A warm shade with a yellow-orange base, ideal for individuals with red or warm-toned hair.

---

### BROWN:

A rich warm brown shade with a red base, perfect for redheads and those with chestnut-colored hair.

---

### DARK GREY:

A deep grey shade with a greenish base, created by blending yellow and blue pigments. Ideal for mixing with warm tones.

---

### BLACK:

An intense black shade with a greenish base, designed to create cool, deep tones when combined with other shades.

---

TATTOO TINT

## RELEASE FORM

---

INDIVIDUAL PACKAGING: 15 ml

SET: 4 COLORS

## WHAT MAKES ZOLA TATTOO TINT SO SPECIAL?

---

### INNOVATIVE SUBSTRATE MOLECULES:

Special substrate molecules create electropositive zones that actively bond the pigment to proteins, ensuring secure adhesion to brows and lashes.

### LONG-LASTING TATTOO EFFECT:

The mimetic affinity of the tint's molecules with proteins delivers a durable result that replicates the bold, defined look of tattooing.

TATTOO TINT

## MIMETIC MULTI-PURPOSE PRODUCT FOR VERSATILE TECHNIQUES

---

### TATTOO TINT

is a chameleon-like product that adapts seamlessly to the master's style and is suitable for any technique.

### OMBRE AND ZONING TECHNIQUE

Creates a natural transition from light to dark shades on the brows. Zoning allows precise work with different brow areas, providing varying color intensity — from a subtle enhancement at the base to a rich tone at the tail.

### DOUBLE APPLICATION TECHNIQUE

This method involves applying the tint in two stages, enhancing color intensity and ensuring a longer-lasting effect.

### GRAPHIC SHAPES TECHNIQUE

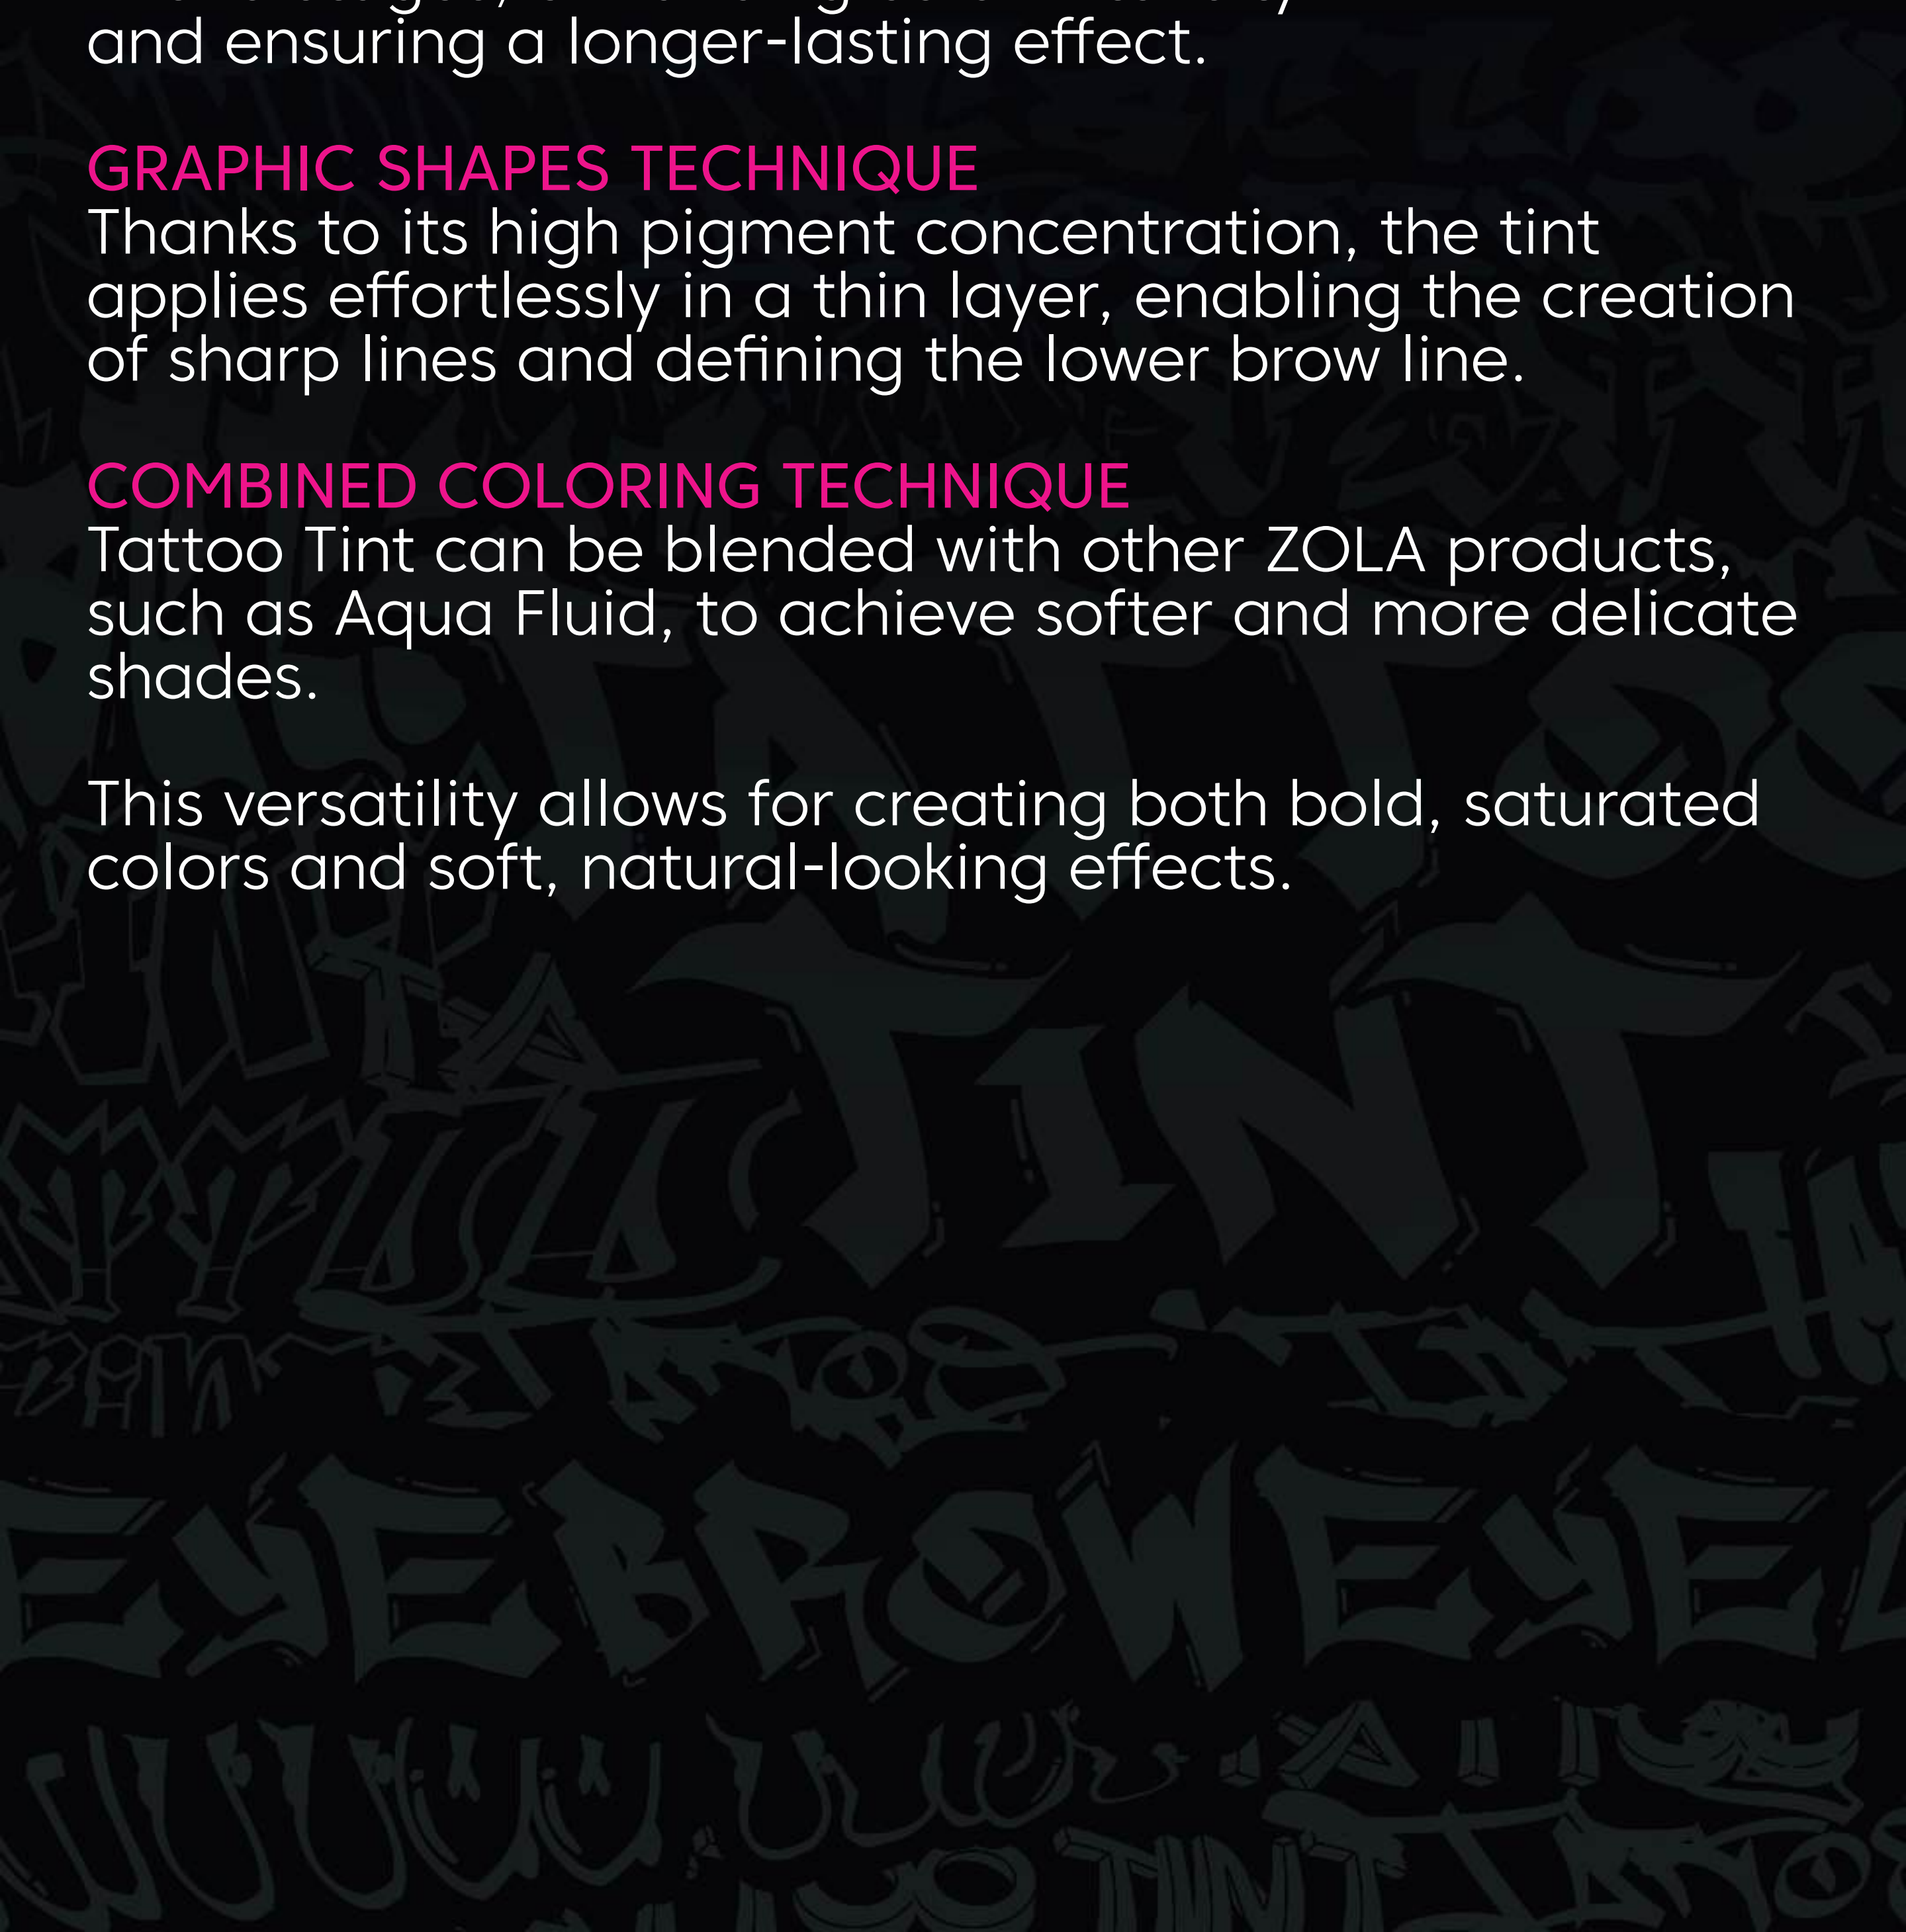

Thanks to its high pigment concentration, the tint applies effortlessly in a thin layer, enabling the creation of sharp lines and defining the lower brow line.

### COMBINED COLORING TECHNIQUE

Tattoo Tint can be blended with other ZOLA products, such as Aqua Fluid, to achieve softer and more delicate shades.

This versatility allows for creating both bold, saturated colors and soft, natural-looking effects.

TATTOO TINT

## BENEFITS OF ZOLA TATTOO TINT

---

### AN ALTERNATIVE TO OXIDIZING AGENTS:

Requires no activators, delivering vibrant, saturated shades without additional chemical reactions.

### NATURAL PH FOR GENTLE CARE:

Formulated with a physiological pH of 5.5, perfectly matching the skin's natural balance.

### REMARKABLE LONGEVITY:

Ensures a lasting tattoo effect and supports precision coloring using hair stroke techniques.

### CUSTOMIZABLE SHADES:

The four base colors can be mixed to create personalized shades tailored to individual preferences.

### NO RESTRICTIONS ON FREQUENCY OF USE:

Free from ammonia, ethanalamine, and their derivatives, making it safe for frequent applications.

TATTOO TINT

## KEY BENEFICIAL INGREDIENTS IN ZOLA TATTOO TINT

---

### KERATIN:

Acts as the primary restorative component, penetrating the hair structure to repair damaged areas.

### NMF (SODIUM PCA):

A specialized moisturizer that helps retain moisture in the skin and hair during the coloring process.

### GLYCERIN:

Provides a smooth, comfortable texture for the tint, easing application and reducing the risk of irritation.

### GLYOXYLIC ACID:

Enhances color fixation, while Lactic Acid improves pigment penetration and ensures hydration.

TATTOO TINT

## UNIQUE FEATURE OF ZOLA TATTOO TINT

---

THE TINT IS PERFECT FOR CREATING  
CUSTOM MIXES DUE  
TO THREE KEY REASONS:

### IMMEDIATE COLOR PREVIEW:

No need to wait for oxidation  
to see the final shade.

### ACCURATE RESULTS:

The color you see in the swatch  
is exactly the shade you'll achieve.

### PERFECT CUSTOMIZATION:

Allows 100% precise shade selection  
tailored to clients' needs.

## TATTOO TINT COLOR THEORY

### BLONDES

---

#### LIGHT BROWN:

In its pure form, Light Brown is the perfect choice for "warm" blondes looking to accentuate their brows with a soft, natural shade.

#### LIGHT BROWN + BLACK:

The addition of Black creates a "cool" base, giving a cooler tone. This mix is ideal for blondes with cool or ash-toned hair.

#### LIGHT BROWN + DARK GREY:

A neutral ash brown for blondes who prefer neutral brows.

**MIXING RATIOS DEPEND  
ON THE DESIRED DEPTH TONE LEVEL.**

TATTOO TINT

## TATTOO TINT COLOR THEORY

### MEDIUM TO DARK BLONDES

---

#### LIGHT BROWN + DARK GREY:

This combination creates a deep shade with a cool nuance, perfect for medium and dark blondes. Provides a soft and natural mix.

#### BROWN + DARK GREY:

A warm, rich shade suitable for medium and dark blondes with coppery or dark ash-toned hair. This mix maintains a natural harmony with hair color.

#### LIGHT BROWN + BLACK:

A cool shade, ideal for those with medium blonde hair and cool undertones. The addition of Black provides brows with a subtle yet defined contrast.

**MIXING RATIOS DEPEND ON THE DESIRED DEPTH TONE LEVEL.**

TATTOO TINT

## TATTOO TINT COLOR THEORY

### REDHEADS AND LIGHT/WARM BRUNETTES

---

#### LIGHT BROWN + BROWN:

Perfect for redheads and light/warm brunettes. The combination adds richness to the brows without creating excessive contrast.

#### LIGHT BROWN + DARK GREY:

Suitable for both redheads and brunettes with light and coppery hair tones. This versatile mix provides depth without overloading the brows with too much contrast.

#### BROWN + DARK GREY:

A balanced shade that complements brunettes with warm undertones and those with dark red hair. The Dark Grey adds structure to the color, while the Brown maintains natural warmth.

**MIXING RATIOS DEPEND ON THE DESIRED DEPTH TONE LEVEL.**

## TATTOO TINT COLOR THEORY

### BRUNETTES

---

#### **BROWN + BLACK:**

A rich, brown-black shade ideal for brunettes with warm undertones. This mix is also perfect for those seeking a shade to create a sharp, graphic effect.

#### **DARK GREY + BLACK:**

A cool, deep shade that suits brunettes with cool-toned hair. This combination provides a dramatic effect, adding contrast and depth to the brows.

#### **BROWN + DARK GREY:**

A warm yet subtle color that complements brunettes with warm or coppery hair tones. The Dark Grey adds structure to the shade, maintaining a natural look with moderate richness.

**MIXING RATIOS DEPEND ON THE DESIRED DEPTH TONE LEVEL.**

TATTOO TINT

## METHOD OF APPLICATION

---

- 1 Cleanse the skin to remove makeup and impurities using cleansing products from ZOLA.
- 2 Outline the desired shape with ZOLA pencil, ZOLA Brow Paste, or ZOLA marking thread for precise definition.
- 3 Apply the tint evenly to the brows or lashes in a thin layer.
- 4 Leave the tint on for 1-5 minutes, depending on the desired color intensity.
- 5 Remove any excess tint using a cotton pad dampened with water.

For a more intense color, you can reapply the tint in a thin layer.

**TO REDUCE THE PIGMENTATION OF ANY SHADE, APPLY THE TINT IN A VERY THIN LAYER OR MIX IT WITH AQUA FLUID FOR A SOFTER EFFECT.**

# STOP LOOKING FOR PERFECTION — CREATE IT WITH TATTOO TINT!

At the final stages of the coloring procedure, it is recommended to use moisturizing products to achieve an incredible result, in particular:

## BROW THERAPY

## AQUA FLUID

## FIXING CERAMIDE CONCENTRATE

## OIL MIX

# TATTOO TINT

## WE DON'T PLAY WITH SAFETY — ONLY WITH SHADES!

---

Here's a checklist of tips for the safe use of ZOLA TATTOO TINT:

- ❗ No allergy test available? Always ask the client about any past allergies to ingredients in the product.
- ❗ Sunlight is a no-go! Keep the product away from direct sunlight to maintain its quality.
- ❗ Beauty is not always the top priority. Do not apply the tint to irritated or inflamed skin.
- ❗ Your hands deserve protection. Always wear gloves when applying the tint, as the pigment sets instantly!

TATTOO TINT

**MATTE BLACK CHIC  
WITH PINK ACCENTS –  
THE NEW DESIGN STANDARD  
FOR CONTENT CREATION**

---

**VIBRANT PINK ACCENT:**
